## MS SERIES FLOOR SCALES

Heavy duty construction for a wide range of industrial applications such as shipping, receiving, bulk loading and are supplied corner trimmed and calibrated when ordered with an MS series display.

The deck is a durable, rigid construction which utilizes a full 6" structural channel frame welded to a checkered steel plate, providing durability and optimum performance in operations such as shock-, end- or corner-loading. The load cells and cables are recessed within the channels for optimum protection.

### Features

Self contained requiring no floor fixtures, can be easily lifted, moved, installed and re-installed to meet your changing needs.
