i5000

Environmentally friendly, the first scales ever made from a natural composite material.

The i5000H digital scale is made from an eco-friendly hemp composite.

The plastic is cold-injected to form the housing for the i5000H.

The i5000 Series are truly the ultimate in kitchen, small office and household scales.

Maximum capacity 11 pounds / 5 kilograms and precise readings as accurate at 0.002 pound / 1 gram.

Weighing Modes:

Weighing Units	Capacity:	Resolution:
Grams	5000 g	1 g
Pounds : Ounces	11 lb	0.05 oz
Pounds	11.000 lb	0.002 lb
Counting		Pieces

Specifications

Power	4 AAA Batteries (included) AC adapter (optional)
Display	Green, Backlit LCD
Tare Feature	Yes
Calibration Feature	Yes
Hold Feature	No
Count Feature	Yes
Platform Size	5.2" diameter
Scale Size	7.9" x 5.9" x 1.8"
Weighing Modes	4
